

WEDNESDAY MORNING, JULY 20, 1918.

Happiest Man in the World

Gen. Mangin, French military leader who gained prominence in the Moroccan campaign and who led the Allied forces in capturing the heights dominating Soissons. Premier Clemenceau, who visited the general last night, returned to Paris and declared, "I have shaken the hand of the happiest man in the world."

PREMIER LAUDS GEN. MANGIN.
Clemenceau Declares Famous Military Leader in the Heights of Glory.

PARIS, July 19.—"Last night when he saw his troops on the heights dominating Soissons on the southwest, Gen. Mangin smiled," says the correspondent of the Liberte.

"Premier Clemenceau was there and warmly shook the general's hand. Was it the presence of Americans in the neighborhood which gave his handshake special strength, evincing emotion and confidence?"

On his return from the front Premier Clemenceau said to his friends:

"I have shaken the hand of the happiest man in the world."

EXECUTE 13 IN CASE OF MIRBACH MURDER.

AMSTERDAM, July 19.—The Cologne Gazette says thirteen Revolutionary Socialists implicated in the assassination of Count von Mirbach, the German Ambassador to Russia, have been executed and many others are under arrest.

FRESNO FIRE CAUSES LOSS OF \$100,000.

FRESNO, July 20.—At 1:15 o'clock this morning fire which started shortly after midnight in the Fall Building is apparently under control, with a loss estimated at close to \$100,000.

SCOTS TAKE HIGH POINT

British Strike, Foo; Take Meteren.

WASHINGTON, July 19.—Announcement by the Navy Department tonight that the armored cruiser San Diego had been sunk today off the Long Island coast indicated that German submarines may again be operating in American waters.

The cause of the vessel's destruction and the casualties that may have resulted were unknown at a late hour.

The vessel itself was not regarded as a serious military loss. If she was a victim of enemy submarines, it is obvious that the U-boats are in the transport lanes and close to the entrance of New York harbor, for the San Diego went down ten miles southeast of Fire Island.

Until the statements of survivors definitely establish that the vessel was sunk by torpedo, there will be a possibility that she struck a drifting defense mine or was sent down by accidental internal explosion.

The only formal statement issued by the department was based on first reports.

"The Navy Department has received reports from the Third Naval District stating that the U.S.S. San Diego was sunk ten miles southeast of Fire Island light at 11:30 o'clock this morning. One officer and two boats' crews were landed at Life-saving Station No. 52 on Long Island. Other survivors are in boats and four steamers are standing by."

"So far as can be ascertained there appears to have been no loss of life. The cause of sinking has not yet been determined. The San Diego was an armored cruiser of 13,840 tons displacement and carried a complement of 1114 officers and men."

Late tonight the Navy Department would add nothing to this statement and officers professed to have no information as to the cause of the loss or the number of survivors. It was apparent officials were prepared to have some lives were lost.

FIRST WARSHIP LOST.
The return of raiders was not unexpected. The San Diego was the first major warship to be lost since the country entered the war. None but commercial coastwise ships fell prey to the submarines on their first raid and in the war zone none but destroyers, transports, and small patrol boats have been successfully attacked.

Despite reports of attacks on other ships and that warnings had been sent to coastwise shipping to keep close to the coast, naval officials steadfastly maintained they had no information on which to believe that the submarines had come again. The sinking aroused the war

THE FLEES WILDLY; ALLIES TAKE 360 GUNS, 17,000 MEN

Summary of Night French Official Statement
(BY ATLANTIC CABLE AND A. P.)
PARIS, July 19.—The Franco-American offensive between the Aisne and the Marne has yielded thus far 17,000 prisoners and more than 360 guns, captured by the Allies, according to the War Office announcement tonight. All day the battle raged violently. The French have held their positions on the plateau southwest of Soissons and have made important advances at various points.

Cruiser San Diego Sunk Off New York; Survivors Landed

(BY A. P. NIGHT WIRE.)
WASHINGTON, July 20.—The Navy Department early this morning received information that two steamships, which are proceeding to an unnamed port, have aboard 1156 officers and men of the United States cruiser San Diego. These are in addition to the one officer and thirty men previously landed. The men are said to be in good condition and so far as known none was injured.

THE WISE SAYINGS OF SPORT O'MALLEY

At Washington Park on the opening day of the Angel-Tiger championship series two English soldiers glimpsed the game in seats opposite the first-base line. The score card was evidently as clear to them as a Japanese trial balance. "What's P stand for?" asked one of the other, pointing to the letter on the score card. "Blime me," replied the other, "but I think it means 'to play.'" "No," interposed a spectator in the next seat, "that means 'pitcher.'" The Britons interpreted C as meaning "to carry the sticks." "No," informed their bureau of intelligence, "that stands for 'catcher.'" "That's bally clear, of course," was the rejoinder. "The gentleman with the iron mask and boxing gloves receives the ball." As Brown ambled to the box the man next them shouted: "Throw it into 'em, Brownie!" "Beg pardon, friend, am I to understand that Mister Brown is to bowl the ball with malicious intent?" "No, no; you see, Curly is some heaver. He's a southpaw and the Tigers are simply peanuts for him." "Yes, of course, how stupid of me. Mr. Brown is a freight handler at Southpaw. But the nuts you speak of—do you mean the kind the huckster was peddling in the stand here? Those are not peanuts—they're what we call monkey nuts in our country and I'll be blimed if they haven't got husks on them the same as ours have." As Bobby Meusel sent a long triple to the fence, one of the soldiers ventured: "Why does the gentleman in the offing waste so much of his bally energy in offing the ball? Why not give the wicket man what he wants when there are so many balls in play to choose from?" When the seventh inning had rolled around, one of the Englishmen, evidently bored by the comparative tameness of the crowd, drawled: "Why don't the people stand up? In New York when I saw a game recently everybody stood up in the seventh session and grew companion-like. Of course, one could hardly expect this sociability in the wild and woolly West. I would bally well suggest that they play the 'Star Spangled Banner' or 'God Save the Queen' during the eighth session."

Backward, turn backward—Cobb singled to right, filling the bases. Crawford smashed a mighty triple to center, clearing the bags. Forward, go forward—Cobb singled to right, filling the bases. Griggs pointed one into the bleachers—the longest hit ever seen on the grounds—scoring four runs.

WITH THE AMERICAN ARMY, July 19.—The first thirty hours of the Franco-American offensive has driven a deep point into the German lines south of Soissons and yielded a net gain of five to fifteen kilometers on a forty-kilometer front. Just before dark last night the Allied aviators saw the French cavalry to the northeast of Soissons and scouting parties of Americans on the heights south of the city.

French cavalry also penetrated far east, returning to make reports of conditions. The aviators also reported that late yesterday the Germans began to draw back their guns from the woods north of Chateau Thierry.

While the Allied soldiers have been around Soissons with the Americans holding Belleau immediately to the south, there has been as yet no fighting direct on Soissons. If the Franco-American forces advance far enough south of the city the Germans may evacuate it without a fight.

In gaining this terrain the French and Americans took thousands of prisoners, 3500 being credited to the Americans alone. It should be stated the American forces composed a small proportion of the total of the Allied forces involved in this operation. We have taken many guns and an immense amount of ammunition. The whole operation has shown how splendidly the French and Americans can co-operate in such an action. In no case have the Americans lagged behind. The only difficulties have come through their not stopping upon reaching their objectives.

BUSY SCENE.
It was a busy scene yesterday back of that battle line. I started out to a certain place to find one of our headquarters. When I got there I found a loose doughboy, who said the headquarters had moved ahead. I went there and it had moved again. Finally I found the headquarters at a place which before the attack started had been in German hands.

As has been told, the attack started without artillery preparation. As the boys started the artillery laid down a barrage of short duration and then lifted to the limit of the range. Our men reached that limit and we had to stop firing until the horses could be hitched to the guns and carry them further to the front. The American attack schedule worked like this—a hundred yards in three minutes, rest five minutes, another hundred yards, rest forty minutes.

Because the Boche was completely surprised and the going was found easy, many of our men regarded the schedule and went and went. Waves which were supposed to overflow one another finally got going, altogether, and this proved not half bad when the Germans launched counter-attacks. The most formidable Boche counter-attack against the Americans was aimed at our troops near Soissons. But just as it started at noon the Americans started a fresh attack far south, which smashed the German counter-attack and netted us three kilometers gain and several hundred prisoners.

In this attack the Americans got fifty-two field guns. A fleet of tanks did yeoman work, smashing their way through the Boche wire defenses. In several instances the Americans got ahead of the tanks and cut the wire with pliers. The front in which the tanks were used was the only spot where the Germans were expecting our attack. They had heard the tanks coming and got ready. However, their resistance was overcome in twenty minutes of fighting. Many of our troops were rushed from distant points to take part in the attack. I know of one unit that got to the detouring point twelve kilometers away, where it was to be met by the trucks. The trucks were not there and so the boys said, "We will walk," and they did—into the battle.

The artillery fire against the French and Americans yesterday afternoon and last night was very light because so many German guns were captured or forced back. Because of the absence of artillery the an extraordinary large proportion of our casualties are slightly wounded.

In one truck, filled with sick youngsters, was a dignified chaplain comforting them. When he saw the carload of correspondents he leaped from the truck and shouted, "The boys are giving Heintie hell up ahead. Benvenuto hell!"

LIKE PICTURE CAMP.
A wonderful sight to many were the big woods back of the Allied line. The French and Americans were making camp in the shade of misty trees standing in straight rows of the artificial forest. It looked, like a big picnic far removed from the trench warfare of which the armies have seen so much in France in the last four years. Here they were camped out in the open ready to pack up and move on. The Hun-ward this morning of 1918. It was certainly the only camp.

(Continued on Second Page.)

EARLY-MORNING FIRE CAUSES HEAVY LOSS.

FIRE of possibly incendiary origin caused a loss estimated at \$3000 to stores and apartments at No. 6119 Moneta avenue early this morning. The store was owned by F. C. Roberts and was known as the Roberts Groceries Company, and its contents were practically destroyed, the loss being \$1500. The building above, an apartment structure, was damaged by R. E. Channing and the damage to the building was estimated at \$500 or \$1000. Small stores at Nos. 6121 to 6127 Moneta avenue were damaged to the extent of \$2000. In the garage in the rear were automobiles owned by F. C. Price, J. A. Sherer and August Van Limick, which also were badly damaged. The police are investigating the origin of the fire.

I HEREBY GIVE NOTICE THAT I, L. E. ZIPPERMAN, am unable to pay the amount of \$100.00 indebtedness contracted by my wife, Mrs. Gertrude M. Rider.

ELY SHOPMEN STRIKE.

Action Throws 3500 Men Out of Work at Copper Mining Camp in Nevada.

[BY A. T. NIGHT WEBER]

RENO, July 19.—A strike in the shops of the Nevada Northern Railroad has thrown over 3500 men out of work at Ely, Nev., a copper mining camp in Eastern Nevada. State Labor Commissioner Cole says none to Ely to endeavor to make an adjustment.

The men are asking a 26 per cent. increase in wages.

The Nevada Northern operates the railroad between Ely and McGill, where the copper mills are located. With railroad operation stopped, the mills at McGill automatically stopped too. The fires in the smelter and being kept burning, but with difficulty.

American Expeditionary Forces.

**RANCHER NOW HEADS
COMMERCE CHAMBER.**
[LOCAL CORRESPONDENCE.]
OCEANSIDE, July 19.—Ben F. Thorpe of Bonnell, a few miles up the San Luis Rey River from Oceanside, manager of the C. A. Canfield ranches in that section, is the new president of the Chamber of Commerce of Northern San Diego county.

Mr. Thorpe has announced that the main purpose of the chamber should be to co-ordinate with the government in the winning of the war, and will bend his energies the coming year to that end. Associated with Mr. Thorpe are Dr. W. V. Nichols of Oceanside, Arthur E. Juch of Julian and Dr. N. Matson of Escondido, vice-president; J. H. Heath, Escondido, secretary; W. M. Smelser of Fallbrook, treasurer. Voting precincts of the northern part of the county numbering twenty-five are represented on the board of directors. Headquarters of the organization will continue to be in Escondido.

**CERTIFICATES BOUGHT
BY BAY CITY BANKS.**
[BY A. F. NIGHT WEBB.]
SAN FRANCISCO, July 19.—The banks and trust companies of San Francisco, Cal.; Coeur d'Alene, Idaho, and Logan, Utah, failed to purchase a single certificate of indebtedness in the last bi-weekly call for such purchases by the government, according to a statement by Liberty Loan headquarters here today. The quota for Coeur d'Alene was \$45,000, for San Francisco \$54,000 and for Logan \$95,000.

BANKS DENT STATEMENT.
[EXCLUSIVE DISPATCH.]
SANTA MONICA BEACH, July 19.—Officials of the several banks of the Santa Monica Bay districts today entered a vigorous denial of a report issued by the Liberty Loan headquarters at San Francisco to the effect that they had failed to purchase certificates of indebtedness in accordance with the last call from the government.

At the Bank of Santa Monica Cashier H. J. Engelbrecht exhibited a receipt for a \$5000 subscription to these certificates, which bore the signature of E. W. Wilson, director of sales, at San Francisco. Since this purchase, Mr. Engelbrecht said, an additional \$5000 had been subscribed for and that the bank was adjusting its affairs to meet the call of the government as they came along.

W. O. Bender, cashier of the Ocean Park Bank, stated that his institution had subscribed for \$15,000 worth of certificates in the last call, that it had made purchases of every other issue and would continue to do so.

From Cashier C. D. Francis it was learned that the National Bank of Santa Monica had just subscribed for \$5000 in certificates and would take \$10,000 when the next call is made.

According to Edward K. Carrier, cashier, the Bank of Venice purchased \$10,000 worth of certificates of the last issue.

Golf Tourney at "Hotel del Coronado" August 3 to 5.—[Advertisement.]

ENTER TRAINING CAMP.
[LOCAL CORRESPONDENCE.]
POMONA, July 19.—Harold W. Kennedy of this city has received a telegram from the school authorities at the Presidio, San Francisco, asking that he report immediately for training. This course will last sixty days, after which he will be qualified to instruct military tactics at the university at Berkeley where he will attend school this winter. This course involves enlistment in the reserves, subject to emergency call, or military duty upon reaching draft age.

**POMONA BOYS
PRIZE PICKERS.**
Gather 100 Boxes of Apricots and Receive \$4.25 Apiece, One Day's Work.

[LOCAL CORRESPONDENCE.]
POMONA, July 19.—Two Pomona boys established a new record for a day's picking in apricots yesterday, when Paul Crawford and Lester Tanner picked 100 boxes. The previous record was eighty-two boxes per day, and was made by Hollywood boys. The record was made on the corner of Towner avenue and Phillips boulevard. For their day's work the boys each received \$4.25. At the time they were not aware that they were breaking any records, but they started out in the morning and picked steadily throughout the day.

Before the Hollywood boys set their record of eighty-two boxes per day, the average day's picking was about thirty-seven boxes.

NAMES RECEIVER.
Complaint Charges Irregularities Against Britten-Cook Company's Officers.

[EXCLUSIVE DISPATCH.]
EL CENTRO, July 19.—Acting on a petition filed here by Adolph M. Hanson and Anton Ullsperger of Chicago stockholders in the Britten-Cook Land Company, Superior Judge Franklin J. Cole appointed Leroy Holt of this city receiver for the company.

Plaintiffs in the action allege that O. E. Cook, Philip Britten and other directors of the corporation conspired to fraudulently obtain control of the company, voting Cook salary of \$50,000 a year and paying him in stock of the company, and other irregularities.

Britten-Cook Land Company, a \$500,000 Chicago corporation, about a year ago bought several hundred acres of land near Holtville and embarked in the hog raising and feeding business on a large scale.

WATER PLENTIFUL.
Danger of Shortage in Imperial Valley Appears to have been Safely Passed.

[EXCLUSIVE DISPATCH.]
CALEXICO, July 19.—So much water was being handled through the Imperial canal system last night that it was necessary to cut down the head at Hanlon's head from 528 second feet to 541, which, with 998 second feet entering through the new Cerro Prieta Canal at Volcano Lake, is sufficient for all needs.

Colorado River gauge at Hanlon's yesterday showed 55.500 second feet, as compared with 54.500 the day before. Yesterday the river showed a rise of two-tenths of a foot at Needles and a similar rise at Tuma.

The situation is regarded as most favorable. Farmers are now getting all the water they can possibly use, and indications are good that they will continue to get plenty, as work on the rock weir in the river work on the rock weir in the river work on the rock weir in the river.

With a water shortage lasting two months last year, Imperial farmers produced crops amounting to nearly \$40,000,000. With no shortage this year, estimates of the crop production are running to boundless figures.

Answers Club.

NEW CITY POWER PLANT OPPOSED BY MALLARD.

Would not be Keeping Faith with People Says Finance Body Head.

WHEN a committee from the City Club yesterday urged the Council to get behind a movement to divert city power revenue funds to the building of another municipal power plant, Chairman Mallard of the Finance Committee bluntly asserted that he would not stand for such a scheme, "because it would not be giving the public a square deal."

"The power bureau, by resolution, pledged themselves to the people of this city that by the first of August, 1918, they would turn over to the city \$600,000 to be utilized in reducing the tax rate for the coming year," said Mr. Mallard. "After making this pledge to the people, they proceeded to divert the revenue of the power bureau to other activities than those agreed upon. While I am in favor of the construction of Plant No. 3 and the extension of the distribution system, I am opposed to public officers breaking faith with the people."

UNDER COUNCIL CONTROL.
Mr. Mallard further stated that the public will never be satisfied with the operation of the power bureau until that department is placed under the direct supervision of the Council. He said the people want to know what is going on in city departments and want to know how their money is being spent.

Despite the promise of the Power Bureau to turn over \$600,000 to reduce the tax rate, the City Club has joined with the bureau in an attempt to divert the funds. To this end it presented correspondence between its organization and Franklin K. Lane, Secretary of the Interior, both letters being referred to the Public Service Committee of the Council.

QUERY AND ANSWER.
The letters have previously been published in this paper. In its letter to Secretary Lane, the City Club stated that the city's revenue from the sale of electric power generated in its existing power plants is in excess of \$400,000 annually, and asked:

"Has the war, in your opinion, given rise to such a serious shortage

of fuel oil and such a serious need for more hydro-electric power, that it would be advisable for the city of Los Angeles to spend its power revenue funds in the construction of additional generating plants, rather than to use such funds to secure a reduction in local taxation?"

In his reply Secretary Lane said, in part:

"If there are any available power revenues of the city which can be legally applied to the construction of additional power generating plants, I know of no higher use to which such revenues may be put."

JAPAN IS READY.
Prepared for Greatest War Sacrifices, Says Buddhist Priest in this City.

"Japan is prepared to make the greatest sacrifices in men and money for democracy, but is earnestly desirous that her acts do not stir up the excellent equilibrium and understanding existing among the Allied nations," said N. Usuki, Buddhist priest and assistant secretary of the Japanese Society, in a statement made yesterday.

He is a delegate to the national convention of Theosophists which begins at Krotova Institute, Hollywood, today.

"Japan desires especially the fullest co-operation of America in the movement in Siberia," he continued. "The friendship of Japan and America is growing daily, and the great war has cemented the bonds of commercial and social intercourse between the nations."

Mr. Usuki will preside over Buddhist services in the Krotova temple tomorrow. These are public and are part of religious observances in many forms expressed on that day. It is the policy of the Theosophical Society to investigate all religious beliefs.

SEEKS PROBATION.
Ramón R. Sraar was permitted yesterday by Judge McCormick to file an application for probation after being sentenced to three months in the County Jail for passing counterfeit checks on the Continental National Bank of Los Angeles on April 27, last.

His application will be heard, July 28.

PASSED BY COUNCIL.
The emergency clause attached, the City Council yesterday afternoon adopted the revised license ordinance. In the event it is signed by the Mayor, it will become effective upon its legal publication and will be enforceable in time for the city to collect increased taxes the first of next month. It is estimated that the new law will increase the city's revenue approximately \$500,000.

Protests against the wheel tax upon commercial vehicles were unavailing. The Council desired to tax every form of vehicle, but the City Attorney ruled that this would be illegal. Commercial vehicles will pay at the rate of 10 cents for vehicles of one ton or less and up to \$10 for ten-ton trucks. Horse-drawn commercial vehicles will be taxed \$2 a year.

Secret Committee Named.

ANTI-COMMISSION BODY TO INDORSE CANDIDATES.

A SECRET committee has been appointed by President W. A. Barker of the Association for Betterment of Public Service to select candidates for State offices who will merit the indorsement of the association.

Mr. Barker says that the work of this committee of prominent business men is now going on and that he expects a report from them during the next two or three days. This committee will compile a list of candidates who will meet the high qualifications desired by the members of this association and who will stand for more economic and efficient government and the elimination of the needless and politically appointed Senator Cartwright.

"Each candidate will be selected without any thought of his previous party affiliation, but it is the desire of the organization to have men who have been identified with the highest and best work of life. It is expected that the list of candidates will include several prominent and well known business men of this city who have never before taken any active interest in politics or State government."

Voters are flocking to the support of this association. Thousands of application blanks have been received and scores are arriving by every mail. Every loyal taxpayer

WANT TO SWAT THE FORTY FAT COMMISSIONS? SIGN AND SEND.

ARE you interested in good government? Do you want to do your part in ousting the forty fat commissions? Then apply for membership in the Association for Betterment of Public Service by filling out the following:

I hereby make application for membership in the Association for Betterment of Public Service, there being no financial obligation on my part.

Name _____ Precinct _____

Res. address _____ Res. phone _____

Bus. address _____ Bus. phone _____

Cut out this application and mail it to the Association for Betterment of Public Service, 335 Consolidated Realty Building. There are no membership fees or dues.

LONG TERMS FOR MAGON, RIVERA.

Twenty-one and Fifteen Years are Sentences.

Must Protect Constitution,
Declares Court.

Ten Days' Stay of Execution
is Granted.

The battle flag of the local "Reds" was furled yesterday, so far as their activities here are concerned, when United States District Judge Bledsoe sentenced Ricardo Flores Magon and Librado Rivera, convicted under five counts of an indictment alleging violation of various phases of the Federal laws, to terms of imprisonment that will scarcely be ended during their life-time.

Totally unlike the circumstances attending former convictions of these men, there were no picturesque features in the courtroom yesterday. The stepdaughter of Magon, Miss Lucille Norman, who has always attended him, was conspicuous for her absence. The wife of Rivera sat by his side, but exhibited no emotion. Neither man seemed affected by the sentence which was later denied by the court.

Neither man seemed affected by the sentence which was later denied by the court. The court referred to the fact that both men had been previously convicted under the Federal laws, the first time in 1912 and the second in 1916. They were deserving no pity for they had been persistent violators of the law, he said.

AS TO FREE SPEECH.
These men and their kind are not to be allowed to hold a copy of the Constitution in one hand and a knife to stab to death in the other. This court is for maintaining at all hazards the Constitution of the United States. These men stand admittedly in a position of hostility to the government. The court is not inclined to accept the dictum that these men and those of their kind should be given the right of free speech for the purpose of destroying the Constitution," said the judge.

W. Flint Palmer called the attention of the court to the fact that Magon had been convicted in the local Federal court for sending inciting letters through the mails, in June, 1916; that an appeal had been taken, and the judgment of the United States Circuit Court of Appeals affirmed the judgment of the United States District Judge Trippett, giving Ricardo Flores Magon a year and a day in the Federal penitentiary. The court ordered that the term of imprisonment to be given Magon should begin to run upon the expiration of the sentence of his colleague on the Federal bench.

Judge Bledsoe then proceeded to pronounce judgment upon Rivera. Upon the first count of the indictment, alleging conspiracy, Ricardo Flores Magon and Librado Rivera were ordered sentenced to the Federal penitentiary at McNeil Island for the term of two years, and to pay a fine of \$1000.

On the third count, the second having been demurred out of court, alleging violation of the Espionage laws and if the breweries engage in the retail business they must pay \$125 a month. In addition, they must pay \$125 a month for the privilege of manufacturing beer.

By a vote of four to three, the Council refused to change the ordinance and if the breweries engage in the retail business they must pay \$125 a month. In addition, they must pay \$125 a month for the privilege of manufacturing beer.

On the fourth count, alleging the sending of improper matter through the mails, each of the defendants was given five years in the same prison, and a fine of \$1000.

One the fifth count, alleging violation of the trading with the enemy laws, each was given one day in the County Jail, the sentence to begin immediately.

On the sixth count, alleging sending of matter through the mails calculated to cause murder and assassination, each defendant was sentenced to run concurrently. This means that Ricardo Flores Magon will have to serve twenty-one years and a month at McNeil Island, if he is behind the bars at the same resort fifteen years.

A stay of execution for ten days was allowed by Judge Bledsoe, twenty days given for the preparation of a bill of exceptions. The bail in each case was fixed at \$50,000.

TELLS OF COLORED MAN'S DUTY IN WAR.
FREDERICK DOUGLASS CITED AS INSPIRING EXAMPLE BY EDUCATOR.

Pointing to Frederick Douglass, the colored man, who gave his sons to help preserve the union of states in which he himself had been enslaved and whipped, and who held many government positions of honor, as a patriotic inspiration to the colored race in the present war, Dean William Picken, prominent colored educator, addressed the enthusiastic audience last night at Wesley chapel, Eighth and San Julian streets.

"Frederick Douglass was one of the finest examples of patriots; he hated the evils that beset his country but he loved his country. If he were alive today, he would fight for America and democracy," said Dean Picken.

"Through all this he hoped, as his race still hopes, to advance the interests and secure the rights of his race in America. Douglass was one of the finest products of our democratic nation, and was the greatest black man of his century. When he died in 1895, a literary friend of his, Dean Picken, pronounced him 'the noblest slave that ever God set free.'"

Dean Picken said that the group of prominent colored educators sent out by the War Department through Emmet J. Scott, colored assistant to Secretary Baker, to create favorable sentiment among colored people for the world fight for democracy,

CHARITIES WILL GET REDUCTION.

Committee of Lawyers will Equalize Taxes.

Institutions Save Money to
County, Pointed Out.

Assessments to Proceed in
Accord with Report.

A committee of attorneys, appointed by resolution of the Board of Supervisors, prepared a report yesterday on the equalization of taxes claimed by nearly 100 charitable institutions which held that the Supervisors, as a board of equalization, have the legal right to grant the petitions for reduction of taxes.

The report was read to the board and several of the attorneys reinforced its contents by addresses in which they took the position that the property of charitable institutions is worth intrinsically less than other property similarly situated in the same neighborhood and that the institutions relieve the county and the State of a large burden of expense which, but for the charities, would be incurred and paid from the public treasury.

On the motion of Supervisor Woodley, seconded by Supervisor Delorey, the board adopted a motion to proceed to assess the properties in accordance with the legal committee's report. The list is a long one and each institution on the list will be separately considered, some receiving a greater reduction than others.

The committee of attorneys includes Chairman Newby, E. W. Britt, Senator Hurd, former Senator F. P. Flint, Donald Barker, a representative of the motion picture industry, Benjamin Page, W. C. Shelton, J. Wiseman MacDonald, Clark Howard, R. W. Galbraith, G. E. Harpham, F. Mulford and M. J. Fink.

READY FOR BIG BALL.
Elizabeth Murray is Latest Addition to
Huge Programme for
Submarine Benefit.

Among the vaudeville and motion picture stars who will appear at the Alexandria in the benefit staged for the submarine base men today, will be Elizabeth Murray, a character woman who recently completed an Orpheum tour, and is now living here. Miss Murray was the original "Madame Sherry" when that fervent opera was first produced, and she also created the leading role in "Oklahoma Bob" which she played some time ago to prove her versatility off the motion picture screen; and Julian Eltinge, famous impersonator of college students, will endeavor to make the crowd roar.

He said the child would be better off there than in a city. Judge York granted Mrs. Perry a decree and awarded the custody of the child to Mrs. Carrie Creighton for two months. Meanwhile he will make an investigation of conditions in the mining camp.

SEEKS ANNULMENT.
Mrs. Alice C. Conkling of Sawtelle lived with Elias F. Conkling several years, she alleges in a suit to annul her marriage, before learning that his true name is Frank E. Conkling, and that he had a former wife living from whom he was not legally free. Wife No. 2 was married in 1904.

DID HE USE WIFE TO ESCAPE DRAFT?
WOMAN'S STATEMENT IN TRIAL OF DIVORCE SUIT LEADS TO INVESTIGATION.

G. C. de Garmo, special attorney for an exemption board, was in June last court yesterday getting a line on the charge in the divorce suit of Mrs. Austria Perry against Grover G. Perry, a mining man, that he tried to "frame up" with his wife to evade the draft.

Mrs. Perry testified that her husband tried to get her to go to the last two years about \$270 for the support of herself and their child. Mr. Perry stated that he had sent

his wife about \$700. The claim was that he sought to evade the draft on the ground that he was supporting a wife and child. Mr. Perry took the matter under advisement.
